

Hausaufgabe zur Übung der Uhrzeiten (Homework for practicing the clock)

The last two Sundays, we have reviewed/introduced the clock in German. Here now is a homework that will reinforce these skills and emphasize writing the number words.

Please write out the following times in the table, using number words in all three systems shown in class. Make sure to use them as appropriate. For example, 8:10 does not have an expression in System 3. The first two lines serve as examples.

Time	System 1 Military/European Time	System 2 vor/nach (before/after)	System 3 viertel, halb, dreiviertel
21:15 (Beispiel/Example)	einundzwanzig Uhr fünfzehn	abends, Viertel nach neun	abends, viertel zehn
16:57 (Beispiel/Example)	sechzehn Uhr siebenundfünfzig	nachmittags, drei vor fünf	N/A (not a quarter, half, or three quarters)
3:30			
12:40			
14:10			
7:50			
22:45			
00:15
